Activities that Both Occupations Have in Common

Similarity of Focus
Occupation to Associated
Occupation: 100

Focus Occupation: Prosthodontists (29-1024)
Associated Occupation: Dentists, General (29-1021)

Work Activities	Exclusivity of Activity
Administer anesthetics	77
Administer injections	60
Administer medications or treatments	46
Analyze dental data	89
Calculate medical dosages	77
Collect clinical data	56
Collect dental laboratory diagnostic data	89
Communicate technical information	4
Conduct patient assessments	69
Counsel patients concerning diet	81
Follow clinical radiation safety procedures	77
Follow dental or medical x-ray procedures	81
Follow infectious materials procedures	52
Follow patient care procedures	60
Identify body response variations	57
Interpret medical laboratory test results	72
Interpret x-rays	76
Make decisions	24
Make presentations on health or medical issues	50
Monitor patient's condition	87
Obtain information from clients, customers, or patients	40
Operate dental equipment	89
Perform minor surgery	82
Prepare patient reports	66
Prescribe or recommend drugs, medical devices or other forms of treatment	76
Understand properties or composition of drugs	64
Understand technical operating, service or repair manuals	6
Use clinical problem solving techniques	69
Use counseling techniques	60
Use dental treatment procedures	87
Use emergency medical treatment procedures	76
Use interpersonal communication techniques	10
Use knowledge of investigation techniques	16
Use knowledge of medical terminology	40
Use research methodology procedures in health care	63
Use sanitation practices in health care settings	48
Write technical health or medical documents	73

Not all positions in these occupations will necessarily perform all of the listed activities. The exclusivity rating is an indication of how unique the activity is amongst all occupations. The maximum rating is 100. High scores indicate that only a small number of occupations engage in that activity.
